CLIMB BY JASPER EALES

Compact urban living is rapidly becoming the norm and product design needs to follow suit. Climb challenges conventional thinking of bikes being kept in the garage and enables you to create a feature of it in your living space, while bringing further functionality to that specific area, with a shelf, coat/hat hook, book-end and light all built into the design.

02.

LOOP BY NORTH LTD

A piece that will complement the rest of your lounge suite, the Loop has been designed to be used either in a reclining position or in a more upright position – let your mood, or book decide.

04.

BAU BY NORTH LTD

Bau has been designed to be used on both sides with the angle of the upright and the height of the crossbars determining your state of sit.

ROCA BY NORTH LTD

The Roca has been designed to not only be a beautiful addition to your home, but to be an even better object to use. Naturally tanned leather hand-stitched to support you while reading, relaxing, or dozing.
